Título

Impatto della pandemia sulle comunità di immigrati in Spagna

Autoría

Patrizia Rinaldi

Fecha

Enero-Marzo 2021

Fuente de publicación

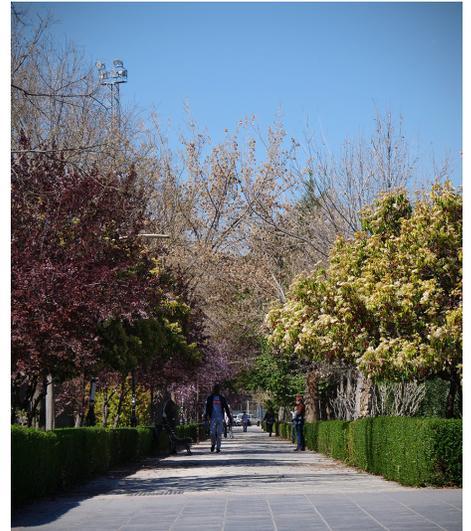

Studi Emigrazione - LVII - n. 221 (en Italiano)

Resumen

This article is based on a dynamic analysis of the situation of the migrant population in Spain, during and in face of the pandemic. It begins by examining its consequences in the lives of precarious workers and its repercussions on their future. The methodology used includes a review of the main national and international data sources.

Palabras clave

Covid-19; migrants; vulnerability; Spain
